Pros: quick delivery packaged and priced well supershed
Cons: instructions difficult to read at times., my only con.
Model Number: Brampton 10' x 8' Wood Storage Shed
"This shed was exactly what was described The directions at times were difficult to read, so when it states "Assembly requires intermediate carpentry skills and will require 2 people 2 days to complete:" they mean it! or plan on 3 days to complete. The packaging was clean and delivery efficient. Over all very please with this product! No cutting required! :)"

Pros: very well engineered; cuts were accurate.
Cons: a few extra 2x4's needed..., a few 2x4's purchased due to minor warpage.
Model Number: Yardline BRAMPTON 10X8 SHED
"I was very happy with this product. All parts had arrived in one large package; truck delivery was timely, and dropped off where we specified in driveway. Instructions were easy to follow and well written. The prime coat on walls looked good. Once floor was built (square and level), everything fit together as designed. It was a lot of work, but very satisfying to put together."
