Working Group Charge

To work with staff to create a clear and consistent methodology to evaluate site-specific, off-street parking ratios for multi-family, residential buildings proposed under the special exception (Site Plan or Use Permit) review process in the Rosslyn – Ballston and Jefferson Davis corridors. In its work with staff, the working group will explore alternative methodologies, evaluate the ramifications of those methodologies, and other transportation strategies that interrelate with off-street parking requirements.

Staff and the working group may make recommendations to the County Board on further study of changes to the Arlington Zoning Ordinance, but this project will not recommend specific changes to the Ordinance.
