The County Board has found that some members of the public and their property have been placed at risk in circumstances where their vehicles have been towed from private property without their consent and placed in storage because of a variety of factors. Those factors include, but are not limited to, unfair and predatory towing and pricing practices, inadequate notice of when vehicles are subject to towing, unreasonable prices for towing and storage, and lack of adequate recourse in the event of improper towing or storage. Based upon the foregoing, the County Board has concluded that the regulations provided for by this chapter are required to protect the public health, safety and welfare generally, and particularly the safety of those members of the public whose vehicles have been towed from private property without their consent and stored, as well as the public interest in ensuring that the prices charged for such non-consensual tows from private property are fair and reasonable.
